

Hue, 03rd January, 2023

FIRST ANNOUNCEMENT
THE 13th INTERNATIONAL CONFERENCE ON PUBLIC HEALTH
AMONG GREATER MEKONG SUB-REGION
Hue and Hanoi, Vietnam – 30/6-02/7/2023

The International Conference on Public Health among Greater Mekong Sub-Regional Countries (GMS) is an Annual Scientific Conference among Mekong Sub-regional countries such as Thailand, Vietnam, China, Cambodia, Lao PDR, and Myanmar. The conference aims to enhance regional capacity to address major public health needs and challenges through presenting and discussing research, reports, solutions and policies to improve population health and health equity, promote collaborations, and share experiences among academy network members, policymakers, and researchers interested in public health.

In 2023, Hue University of Medicine and Pharmacy, and Hanoi University of Public Health will co-organize The 13th International Conference on Public Health among Greater Mekong Sub-Region with the main theme “**Enhancing transdisciplinary collaborations on Education and Research to tackle priority public health issues in the new Era**”. The Organizing Committee is grateful to announce and invite the participation of domestic and international health staff, scientists, administrators, policymakers, undergraduate and postgraduate students and to whom it may concern to register and submit scientific reports.
